

REAL ESTATE POWERED BY TECH

At **Equity Homes**, we specialize in tech-driven, sustainable, and luxury real estate solutions that enhance modern living. Our services integrate smart technology, energy efficiency, and high-end aesthetics to create homes and commercial spaces that are future-ready.

1

Smart Homes & Automation Systems

We provide cutting-edge **smart home solutions** that give homeowners full control over their living spaces through automation. Our services include:

- **Remote-Controlled Lighting & Appliances:** Manage your lights, fans, and appliances from anywhere.
- **Smart Security Systems:** AI-powered cameras, motion sensors, and automated door locks.
- **Voice & App-Controlled Home Features:** Control your home with voice commands or mobile apps.
- **IoT-Enabled Energy Grids:** Optimize energy usage and monitor consumption in real-time.

2

Sustainable & Energy Efficient Homes

We integrate **eco-friendly technology** into modern homes, making them energy-efficient and cost-effective. Our solutions include:

- **Solar Power Systems:** Complete solar panel installations for energy independence.
- **Rainwater Harvesting Systems:** Water collection and filtration systems for sustainable water use.
- **Energy-Efficient HVAC Systems:** Smart cooling and heating solutions that reduce energy bills.

3

Real Estate Development & Smart Property Designs

We design and develop **high-tech, modern real estate projects** that meet the demands of today's homeowners and investors. Our developments feature:

- **Luxury smart homes** with automation and security integration.
- **Sustainable housing projects** built with energy efficient materials.
- **Commercial real estate solutions** tailored for business needs.

4

Smart Swimming Pools & Water Features

We create **luxury and tech-enabled water installations** for residential and commercial properties. Our services include:

- **Automated Smart Swimming Pools:** Self-cleaning, temperature controlled pools with energy saving filtration systems.
- **Custom Water Fountains:** Aesthetic and eco-friendly water features with motion activated or app controlled functionalities.
- **Pool & Fountain Maintenance:** Regular servicing to keep water installations in top condition.

5

Hotel & Hospitality Tech Integration

We provide **smart technology solutions** for hotels, resorts, and short-term rental properties, enhancing guest experience through:

- **Automated Room Controls:** Smart locks, lighting, and climate control.
- **High-Security Surveillance:** AI-driven monitoring for hotels and guest houses.
- **Energy Management Systems:** Optimized energy use for reduced operational costs.

Why Choose Equity Homes?

• **Tech-Driven:** We integrate smart home technology into every service.

• **Sustainable & Energy-Efficient:** Our projects reduce environmental impact and energy costs.

• **Luxury & Comfort:** We design modern homes with top-tier aesthetics and functionality.

• **Innovative & Future-Ready:** We bring the latest real estate technology to your doorstep.
